Revenue per Available Room (Revpar) ⁶ (\$)	193.6	207.9	196.2	199.6	189.0	195.5							196.9	0.4

Definitions

¹ Room lettings paid for by hotel guests

² Available room nights = Maximum rooms - Rooms under renovation, for staff use, others

³ Gross lettings (Room Nights) = Adjusted Paid lettings + Complimentary lettings

⁴ Standard AOR = [Gross lettings (Room Nights) / Available room nights] x 100

⁵ Standard ARR = Total room revenue / Gross lettings

⁶ Revpar = AOR x ARR

⁷ % Point Change (AOR)

Note:

The hotel tiering system is a reference system developed by the Singapore Tourism Board (STB) to categorise the different hotels in Singapore into tiers based on a combination of factors that include average room rates, location and product characteristics.

The current hotel tiers published are based on the hotels' performance in 2016. The response rate across the tiers may vary.

Luxury - Includes hotels in the luxury segment and are predominantly in prime locations and/or in historical buildings

Upscale - Includes hotels in the upscale segment and are generally in prime locations or hotels with boutique positioning in prime or distinctive location

Mid-Tier - Includes hotels in the mid-tier segment and are primarily located in prime commercial zones or immediately outlying areas

Economy - Includes hotels in the budget segment and are generally located in outlying areas

^(e) 2017 figures are preliminary estimates
